

Windows 10 Pro

# HLBS Server

## Key features and benefits

### Low acquisition cost for the budget conscious

- + HLBS Server offers the right server technology for small businesses looking for just the right performance and features at an affordable price.
- + Embedded HLBS remote and out-of-band management allows network administrators to easily check and update server remotely, reducing any offsite travel expenses.
- + Pre-install with 2x1 GbE and up to PCIe slots to adapt and grow to meet changing business needs.

### Expandable with increased connectivity slots for storage and networking

- + Server design allows for installation and convenient expansion to meet business needs, with support for up to six large form factor (LFF) hard disk drives four USB ports, and four I/O slots.
- + The Server delivers many years of expandability and operational efficiency for businesses at a desktop price.

Model No.	HLBS CMX -1000T	HLBS CMX -1000R
CPU	Intel Xeon E3-1220 v2 Quad Core processor 3.1Ghz or better with 8 MB L3 cache Memory or equivalent rolled over Next Generation Processor	
Chipset	Intel C200 Series	
Motherboard	OEM / Intel original Motherboard.	
Slots	4 PCI/PCI Express	1 PCI x / PCI Express Slots
Memory	8 GB ECC 1333 MHz DDR3 RAM and min. 4 DIMM slots.	
Hard Disk Drive	2 x 500 GB or higher Enterprise Class NLSAS/SATA HDD 7200 RPM	
RAID Controller	Four Port Raid Controller for RAID 0/1	
Video Controller	To support VGA or above resolution	
Keyboard	101 Keys Keyboard/ Optical Mouse	
Bays	4 PCI/PCI Express	1 PCI x / PCI Express Slots
Ports	4 USB Port, 1 Serial Port	3 USB Port, 1 Serial Port
Cabinet	Tower	Rack Mounted
Certifications	BIS Certified Windows, Novell certified	
DVD ROM	8x or better DVD ROM Drive	
Networking	Dual LAN (10/100/1000) Network Card with asset feature tracking and security management, remote wake up	
Power Management	Screen blanking hard disk and system idle mode in power on set up password, power supply surge protected.	
Power Supply	Redundant Power Supply.
