

HiNUM[®] Information KIOSK

Smart. Fast. Reliable.

www.hlbstechnology.com

Latest in Technology, Effortlessly Reliable.

▲ Why HLBS Touch Screen Information Kiosk

HLBS is a leading provider of interactive touchscreen kiosks, which allow users to navigate computer system by touching icons and links on screens. Touchscreens are quickly becoming the interface of choice for a vast array of environments. They stimulate the senses to provide memorable service experiences, while being so user friendly that they do not require any computer experience.

This new breed of interactive technology has diversified into every aspect of public life: hotels, airports, hospitals, shopping centres, bars, restaurants, colleges, banks, schools, campgrounds, medical centres, convention centres, public libraries, car dealerships, cruise vessels, book stores and more,.

Our kiosks are ergonomically designed, take up very little space, serve many functions, possess remote management capability and offer unlimited future potential. We tailor the hardware and software of our kiosk to suit the wants and needs of each customer.

▲ HLBS Infok Kiosk

INFOK is our most popular model. This great all-round kiosk combines a unique ergonomic design with unmatched sturdiness and can be placed virtually anywhere in your office or retail environment.

INFOK's slim body hides a virtually maintenance free industrial grade computer that is able to support both Internet and Windows based applications offering you an unlimited flexibility and infinite potential applications.

This very compact and reliable kiosk creates the ideal harmony of form and function. Its flexible configuration can be adapted to serve wide range of customers by fitting a number of optional peripherals.
